

**Amendment to the Views and Estimates of the Committee on Financial Services  
on Matters to be Set Forth in the Concurrent Resolution on the Budget for Fiscal  
Year 2016.**

Offered by Ms. Beatty of Ohio

Beginning on page [8] line [15], strike everything after “The growth...” through line 26 and insert the following:

The Section 8 Housing Choice Voucher (HCV) Program provides safe, decent, and affordable housing to approximately 2.4 million households (over 5 million people) nationwide, most of which have extremely-low incomes. Seniors or people with disabilities head approximately half of HCV households, making these programs essential for these populations.

HUD and GAO have determined that the HCV program is an effective means of delivering rental assistance to low-income households. What has now become championed through partisan efforts, HCV was originally brought forth in a bipartisan manner. For instance, President Bush’s FY 2008 budget request says, “The Section 8 Tenant-Based Rental Assistance program is the Federal Government’s foremost program for assisting low-income families to rent decent, safe, and sanitary housing in the private market...Based on an assessment of the program, this is one of the Department’s and the Federal Government’s most effective programs. This program has been recognized as a cost-effective means for delivering decent, safe, and sanitary housing to low-income families.”<sup>1</sup>

The Committee fully supports the HCV program, and looks forward to working with the Administration on expanding and strengthening the program.
